INTRODUCTION

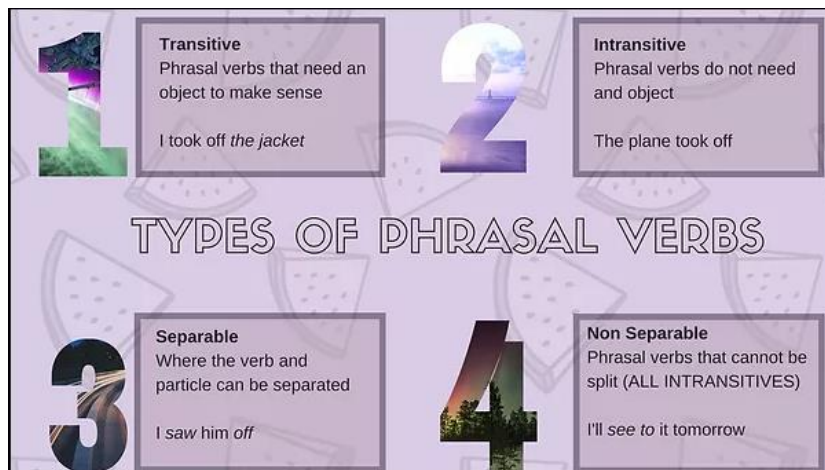

Dear students,

In this worksheet, you will find a short explanation about phrasal verbs. Read it carefully to better understand the topic. Then, you will find a workbook created in the platform "Liveworksheets" in order to do the written practice. As usual, our goal is to develop the 4 communicative skills. That is why, our speaking practice will be focused on the book sent before vacations: "The invisible man", which will help you to strengthen your reading and listening skills. Do not hesitate to contact your teacher, if you have any question, after carefully reading instructions.

CHECKING PHRASAL VERBS

TOPIC EXPLANATION

Phrasal verbs are verbs with one or two particles added, which can be prepositions, adverbs or both. Some of them need to contain an object, and some of them don't, they can be made from up to 3 words.

To start practicing this topic, we will start by identifying some of the most common phrasal verbs. The verb "Get" presents a large number of phrasal verbs, which are formed with different prepositions; as shown below. Additionally, we will identify other useful phrasal verbs for our daily life. Check this worksheet first, before starting your "liveWorksheets" practice. Try to memorize as many phrasal verbs as you can for our virtual meeting.

A. Watch the video and complete the meanings of the phrasal verbs formed with "GET", you do not need to send any e-mail or screenshot. Remember, studying and learning are personal procedures. Just do it to learn! So that you can easily do your practices and future tests or presentations.
